

Submission STAT1-PS1-SUB07

Question STAT1-PS1-Q01

beginning only... show step

$$\bar{x} = 33/5 = 6.60$$

[blank space]

I did not reach a conclusion

Question STAT1-PS1-Q02

beginning only... show step

$$P(D_1 \cap D_2) = (3/16)((3-1)/(16-1))$$

[blank space]

I did not reach a conclusion

Question STAT1-PS1-Q03

beginning only... show step

$$SE = \sqrt{(\bar{p}(1-\bar{p}))/n} = \sqrt{(0.35(1-0.35)/40)} = 0.0754$$

[blank space]

I did not reach a conclusion

Question STAT1-PS1-Q04

beginning only... show step

Increase sample size n to reduce standard error.

[blank space]

I did not reach a conclusion

Question STAT1-PS1-Q05

beginning only... show step

$0.03 < 0.05$, so reject H_0 under the stated rule.

[blank space]

I did not reach a conclusion

Question STAT1-PS1-Q06

beginning only... show step

$$\bar{x} = 21/5 = 4.20$$

[blank space]

I did not reach a conclusion
